

An ISO 9001 : 2015 Certified Company

**Manufacturer of Brass Fasteners  
& Turned Components  
And Fittings**

In addition to our standard products, we also offer need-specific customized solutions to our clients. The products are made as per the client's specifications and requirements in order to deliver total value for their money. Our quality products have become some of the most favored ones in Domestic & Overseas market due to our expertise and close attention to every aspect of quality.

We have experienced team members for direction of our manufactured products. Besides, we also test these products on different parameters in order to provide a flawless and defect free range to the customers.

### Process & Structured Management

Employing rigorous and streamlined methodologies, we ensure seamless operations and optimal efficiency throughout our organization.

### Very Competitive Price

Our commitment to provide exceptional value is reflected in our highly competitive pricing, ensuring cost-effectiveness without compromising quality.

## We Aim to Contribute With Full Dedication Towards Your Company

Raw Material

Manufacturing

Quality Control

Packing & Dispatch

## Customer Satisfaction Is Our Aim

We believe in treating our customers with respect and faith. We grow through creativity, invention and innovation. We integrate honesty, integrity and business ethics into all aspects of our business functioning.

### Our Mission

To continuously strengthen & upgrade our manufacturing processes, quality systems and people competencies by training, educating and providing a safe work place.

### Our Vision

Our vision is to provide high quality, value added Precision & fastening solutions and services that will keep our client ahead of competition and in forefront of technology.

### Our Commitment

To understand and exceed the expectations of our valued customers, while delivering high quality products with competitive price to their most demanding requirements.

Prime aim of our company is to attain quality in our every business endeavor. We are an ISO 9001:2015 certified company. We are having team of quality inspectors having sound technical knowledge of parts that are manufactured in our premises. Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand we take care at every stage right from raw material purchase to finished goods.

Our quality assurance team is trained and well experienced. To achieve the maximum standard our quality control team continuously monitors the products and user requirement right from the production stage up to the final dispatch. Every employee of the company is committed to the pursuit of excellence with continuous improvement of the Quality Management System.

Quality Assurance	100 %
Reserch & Development	85%
On-Time Delivery	95 %

## Quality Equipments

Instruments are heartbeats of industry. To assure good quality of prodcuts, quality instruments are required. Company has invested a good amount to have all type of measuring equipments including all instruments and gauges.

## Infrastructure

Naman Mech Tech is backed by modern infrastructural base that is equipped with advanced machinery, equipment and tools assisting us in offering top-notch quality fasteners, valves and spare parts. Sprawl over a large area, this infrastructural base is properly segregated into numerous well functional departments like R&D, admin, quality testing, procurement, sales, manufacturing, logistics, etc. The sophisticated production facilities enable us to execute orders of various sizes and specifications. The infrastructural facilities are also equipped with sophisticated packaging equipment and machinery to ensure quality packaging that ensures safety of products during transit and delivery.

We also have a separate R & D unit for continuous research and development to come out regularly with new products and improve the quality of existing products. Refining and revising of processes is a major strength of our research team. To ensure we are able to produce product as per the market requirements we keep upgrading our machines and incorporate newer ones as and when required.

## Brass Bolts

Brass bolt is a form of threaded fastener with an external male thread made from Brass. Brass Bolts are generally used as connectors with applications in various mechanical and electrical industries. Brass Bolts use a wide variety of head designs, as do screws. These Brass Bolts are designed to engage with the tool used to tighten them. Some Brass Bolts heads instead lock the bolt in place, so that it does not move and a tool is only needed for the nut end. We are prominent manufacture & supplier of supreme quality brass bolts. We produce a big range of brass bolts which are made from brass, mild steel, copper, zinc alloy as per DIN standards.

## Brass Nuts

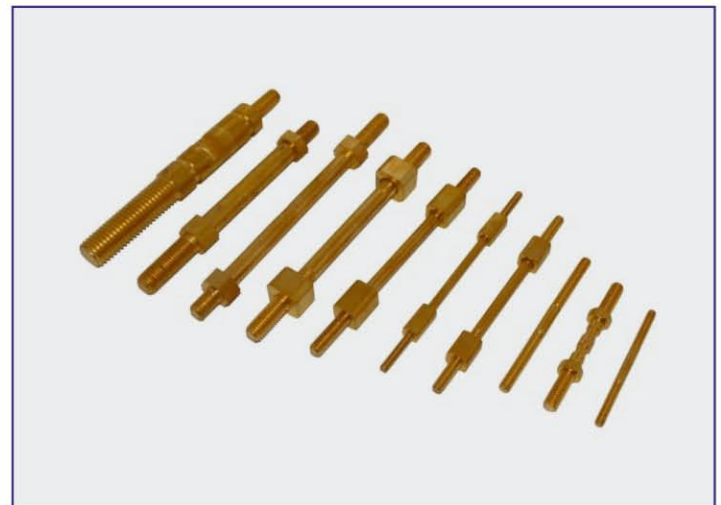

Brass Nuts have a large variety according to its usage, we have huge number of brass nuts from M2 to M24 in different categories like Hex Nuts, Square Nuts, Dom Nuts, Union Nuts, Check Nuts, Lock Nuts, Slotted Round Nuts, Grooved Lock Nuts, Cap Nuts & Eye Nuts. We Provide accurate threads as per Go - Not Go standards and also after thread Pin gauge accuracy as per customer requirements.

## Brass Moulding Inserts

The wide range of Brass Inserts include threaded moulding inserts, ultrasonic moulding inserts, knurled moulding inserts, moulding inserts for plastic, wood moulding inserts and more. The range of standard and high quality brass moulding inserts are designed to be molded into the plastic, wood or any molded components. The brass used in the manufacturing of these Inserts is of optimum quality that ensures high durability, tensile strength and resistance to corrosion.

## Brass Long Stud

We are one of the well-known manufacturer and exporter of high quality Brass Long Stud, which are used in the various in electrical, electronics, automobile, telecom, plastics industries and other applications. These studs are extensively used to support the joints required for fixing different objects. These are manufactured using optimum quality materials of advanced technology and hi-tech machinery that are procured from genuine vendors. These studs are available in various dimensions, lengths and sizes.

## Brass Grease Cup

Enriched with long years of experience in the industry, we are offering an extensive range of Brass Grease Cup. Brass Grease Cup is used to provide grease to a piston during its motion in a service pump. Our brass grease cups are precision engineered using high-grade metal and advanced machinery in accordance with international quality standards. The grease cups have shanks which provide enhanced grip by allowing it to screw firmly with the hexagonal shoulder. These cups provide optimum grease feed capacity for every size and can also be customized as per the specific requirements of our customers.

## Brass Fitting Components

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fasteners, due to its excellent qualities such as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility. The main key feature of brass fittings is its excellent corrosive resistance, and also its plating, joining, polishing and finishing characteristics. Each brass fitting design is used for a specific application and purpose. Depends on the operation, specific Brass Fittings are used to join or connect two components or parts in industrial applications.

## Brass Gas Valve

We are one of the most renowned Brass Gas Valve Manufacturers, Suppliers and Exporter. For manufacturing these components, we ensure that fine quality of brass metal is used. Further, we also see to it that the brass alloy has the required ratio of copper and zinc. We have gained much prominence as a Brass Gas Valve Manufacture and Supplier. We are offering our premium quality brass gas valves as per standard industrial norms at the most-effective prices. Due to our excellent quality of products, we have gained a remarkable position in the market. Our clients laud us for the quality of products and the promptness of our delivery services.

## Brass Fitting Bush

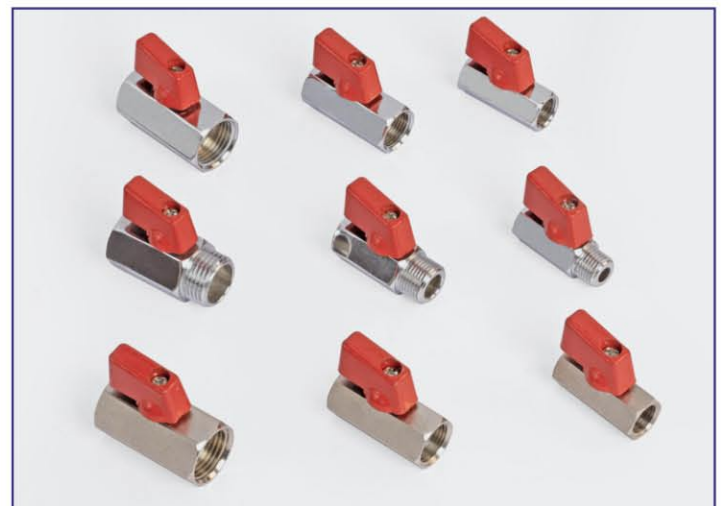

We are prominent Manufacturer & Supplier of Brass Fitting Bush. The Bush we are providing is developed by our highly talented and seasoned technocrats who have a sound knowledge of its utility and customers requirements. Brass Bush has a wide industrial usage. It is mainly used in various tools and machinery parts. We serve wide range of Brass Bush according to customer design. They have been developed from supreme quality raw materials and tremendously updated technology. Our products have completely cornered the popularity charts due to attractive features like optimum usage, performance and friendly prices.

## Brass Connectors

We are one of the most renowned Brass Connector Manufacturers, Suppliers and Exporter. For manufacturing these brass connectors, we ensure that fine quality of brass metal is used. We have gained much prominence as a Brass Connector Manufacturer and Supplier. Our clients laud us for the quality of products and the promptness of our delivery services.

## Brass Ball Valve

We have carved a niche in the market by offering high quality Brass Ball Valve. These products have a very strong body and are heat and corrosion-resistant. These products perform efficiently in various domestic and industrial applications. Our products are made of premium grade material and latest techniques. Available at very nominal rates, these products are widely demanded in several commercial sectors. All these valves are examined on well defined parameters to keep it as per set industry norms.

## Brass Auto Parts

We are specialized in manufacturing and customizing any kind of automobile parts as per customer requirements and CAD drawings. We are using excellent quality raw materials and advanced technology to ensure the high durability and anti-corrosive property of automobile parts. All our automobile parts are compliance with the international standards and industry norms. Our offered range of brass auto parts are widely appreciated by customer in domestic as well as international market for its accurate dimension, precious design, high performance and flawless finish. Brass Auto Parts are widely used in all kind of vehicles and automobiles as replacement and repairing parts. Our automobile parts are preciously tested and inspected before its final delivery to ensure defect free and high-performance product. We are capable to manufacture standard as well as custom automobile parts in-terms of dimension, size, material, shape as per customer specification & requirements.

## Brass Air Compressor Parts

In line with clients'' variegated requirements, we bring forth a distinguished collection of Brass Air Compressor Parts. Our offered brass air compressor parts are extensively used as a component in various types of machines and is made using supreme quality raw material and ultra-modern technology. The provided brass air compressor parts are tested by our quality controllers to ensure its best quality. In addition to this, our valuable clients can avail these parts at economical prices.

## Brass Wing Nuts

We are counted one of the most prominent manufacturers and exporter of Brass Wing Nuts. Brass Wing Nuts are engineered at our unit using premium raw metals which are obtained from the authentic vendors of the market with the aid of advanced technology and high end machines. Our offered product is suitable to be applied on any type of machine for tight & durable fitting. These Brass Wing Nuts are available with us in various specifications as per the variegated needs of our customers.

## Brass Washers

Brass Washers are disks of metal or non-metallic material placed beneath a nut, an axle bearing, or a joint, to relieve friction, prevents leakage, isolate, prevent loosening or distribute pressure. There are many different types of brass washers and washer type products for a variety of applications. Brass Washers are made from a piece of Sheet / Plate and thereafter it is being cut ted in to the circle or required out shape as well as inside shape. These washers are manufactured from supreme quality brass raw material. These Brass Washers pass a quality check under the watch of our expert quality controllers.

## Brass Precision Turned Components

We are engaged in offering a wide range of Brass Precision Turned Components to our clients at a reasonable cost. Our precision turned components are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass precision turned components depending upon client's requirement for application in any industry. The range of Brass Precision Turned Components find wide application in machine building, automobile, hydraulics and general engineering industry. Our turned components are tested on numerous parameters to assure it on counts of quality.

## Brass / Aluminium Spray Gun

We have established a reputed position in the market in manufacturing and exporting wide variety of Brass & Aluminium Spray Gun. These Spray Gun are used for washing all types of vehicle such as car and bike. Spray Gun helps water to do its job even better by breaking down gunge and grease and making it easier for water to flush away.
